

FORESTRY EVENTS

In addition to our newsletters, yearbook, policy position papers and representation on bodies such as COFORD and Teagasc, ITGA places strong emphasis on creating greater awareness of forestry issues through its field days. In 2025, we feature a number of events in collaboration with key organisations and companies in forest management, energy, sawmilling and multipurpose forestry. We will collaborate again with State and private companies, and organisations in arranging these events. Full details of ITGA field days will be featured in our newsletter and website (www.itga.ie) in 2025. As part of our policy to promote forestry nationally, we also feature events by other forestry stakeholders.
